# More Features, Simply

Advanced Bitmap Objects

Multi-state Indicator Object

The Multi-state Indicator Object has been created to display preprogrammed messages within a frame on the ToughPanel. Each object has its own message storage and does not need an external database. 256 messages can be displayed based upon the value of a bit or of a tag.

Messages

The Multi-state Indicator can also be used without messages as simply a Multi-state Indicator Light, such as the one shown here.

Multi-state Indicator

General | Messages | Visibility/Details |

Display Messages based on BIT NUMBER.
Bits are represented in Decimal Number System.

Maximum number of messages :: 255
Current Editing Language : 1
Total Number of Messages : 4

Bit #	Print	Char Size	Text Color	Blink	Bkg Color	Blink	Lang #	Msg Text
DEFAULT	NO	8x16		NO		NO	1	Default Message
1	NO	8x16		NO		NO	1	Message 1
2	NO	8x16		NO		NO	1	Message 2
3	NO	8x16		NO		NO	1	Message 3
